

MILLED PEAT HARROW RPH-18

Working width	18 m
Transport width	14,5 m
Tyres of middle frame	19.0/45-17
Tyres of wing frames	210/60-14.5
Number of wheels	4 pcs
Cylinders	3 pcs

All working units of the peat harrow can be lifted up in three sections (two on sides and one middle section).

Therefore - when crossing gravel or concrete roads - rocks are not transferred to peat production areas.
